Management currently identifies the Group's single service line as its operating segment. The operating segment is monitored by the Group's chief operating decision maker and strategic decisions are made on the basis of adjusted segment operating results.

Management assesses the performance of the operating segment based on a measure of underlying EBITDA. This measurement basis excludes significant expenditure from the operating segments such as acquisition, transaction and integration costs, effects of equity-settled share based payments, corporate office costs, finance costs, depreciation and amortisation, and goodwill impairments when the impairment is the result of an isolated, non-recurring event.

Transactions between segments are carried out at arm's length and are eliminated on consolidation. Segment revenues reported to the board of directors are measured in a manner consistent with that in the income statement.

6. Fair value measurement of financial instruments

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three levels of a fair value hierarchy. The three (3) levels are defined based on the observability of significant inputs to the measurement, as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3: unobservable inputs for the asset or liability

The following table shows the levels within the hierarchy of financial assets and liabilities measured at fair value on a recurring basis at 31 December 2015 and 30 June 2015:

	Level 3	
	31 Dec 2015	30 Jun 2015
	\$'000	\$'000
Financial Liabilities		
Opening balance	5,615	5,615
Gain or loss recognised in statement of comprehensive income	-	-
Payment of deferred consideration	(2,176)	-
Total liabilities	3,439	5,615

Valuation inputs and sensitivity for fair value measurements categorised within level 3

The fair value of contingent consideration related to the acquisition of The Hills Clinic Pty Ltd on 5 May 2015 is estimated using a present value technique. The \$3,439,000 fair value is estimated by probability-weighting the estimated future cash outflows, adjusting for risk and discounting at 4.1%. Management estimate a 100% probability that the contract's target revenue level will be achieved. The discount rate used is 4.1%, based on the Group's estimated incremental borrowing rate for similar financial liabilities at the reporting date. A change in the discount rate of 100bps would increase/decrease the fair value by \$38,000.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE HALF YEAR ENDED 31 DECEMBER 2015**

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Pulse Health Limited

Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of Pulse Health Limited, which comprises the consolidated statement of financial position as at 31 December 2015, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, notes comprising a statement of accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the half-year's end or from time to time during the half-year.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2015 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Pulse Health Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Pulse Health Limited, would be in the same terms if given to the directors as at the time of this auditor's review report.

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2015 and of its performance for the half-year ended on that date; and
